1	<p>This is yet another kind reminder about our request for the RFP documents. We have been trying to download it from the website; however, there seems to be a technical glitch.</p> <p>We would highly appreciate your assistance and response</p>	<p>This could be due to technical challenges. We have since tried the links and the RFP Document is accessible.</p> <p>The links are hereby reproduced below for your kind perusal:</p> <ul style="list-style-type: none"> • Dropbox: Interested consultants can access the RFP documents using the following link: https://www.dropbox.com/sh/ci1ur460n6jx05v/AADyGWXiS7SIM9mTtfGz2UROa?dl=0. • MMD Website: Alternatively, consultants can visit the MMD website at https://www.mmd-malawi.org to obtain the documents. <p>Please revert if the challenge persists.</p>
2	<p>Following the Pre-Proposal Meeting, we would like to request for clarifications for the following issues:</p> <p>1. Experts- Bridge and Drainage Engineer - would the client consider including a Bridge and Drainage</p>	<p>The Client/Employer needs not make new provisions for Bridge and Drainage Engineer. Provisions have already been made in the Terms of Reference (TOR) of the Request for Proposals (RFP) for Additional Staff.</p> <p>As per paragraphs 6.1 and 10.2 of Section V -Terms of Reference of RFP, Pages 126 & 145 on Additional Staff, the</p>

<p>Engineer on the list of Experts? The Client pointed out that a certain section has a perennial water problem.</p> <p>We propose that a Bridge and Drainage Engineer should be part on the team that will investigate and provide solutions for the hydrological related road failure. Therefore, we are asking the client to consider including a Bridge and Drainage Engineer on both Design and Supervision Team.</p>	<p>Consultant is required to propose additional staff to attain the necessary program of the works, but these will not be evaluated.</p> <p>The costs of such staff will be assumed to be included in the financial proposal submitted, whether these appear explicitly or not.</p> <p>For the avoidance of doubt, the Client/Employer proposes that the input of a Bridge and Drainage Engineer, as will be required, shall be at least one (1) person month for the design phase and one-half (0.5) person month for the supervision phase.</p>
